SUMMARY STATEMENT

Software engineer with a bachelor's degree in computer science and 6 years of experience developing applications with Flutter. Co-founder of Paulonia. Participated in 19 projects, from e-commerce to image processing apps. Content creator for Latam Flutter community and speaker at 5 talks. Seeking to leverage proven leadership and expertise to become Google Developer Expert.

WORK EXPERIENCE

Senior Software Engineer **October 2022 - Present**
Somnio Software — Remote (Montevideo, Uruguay)

- **Learnie:** Reviewed architecture and proposed improvements; implemented auth flow to persist authentication between mobile app and web app using Cloud Functions and Firebase Auth (custom token)
- Developed and maintained Flutter applications using Firebase and modern development practices
- Built and maintained Flutter applications, focusing on mobile app development

Mobile Software Engineer **January 2020 - June 2025**
Paulonia — Arequipa, Perú (Self-employed)

- Tested, coded, reviewed, and delivered apps to AppStore, Playstore, and Web
- Guided the transition of the team from using GetX as state management to using Flutter-Bloc, in order to increase test code coverage, apply SOLID principles, improve readability and facilitate maintenance on large projects
- Trained entry-level developers (Flutter, SCRUM, and Git)
- Reviewed bugs reported by Sentry in production apps, and deployed new versions fixing them
- Included linter, code formatter, and name conventions in order to standardize the code of all developers

EDUCATION

Bachelor in Computer Science **April 2014 - December 2019**
San Agustin University, Arequipa, Perú

SKILLS

Expert: Flutter, Dart, Firebase, Mobile app architecture, Responsive UI

Advanced: REST APIs, Supabase, CI/CD (GitHub Actions, Codemagic, CircleCI)

Familiar: PostgreSQL, Node.js (NestJS), GraphQL, Protobuf, Figma

VOLUNTEER EXPERIENCE

Lead Organizer **2023 - Present**
FlutterConfLatam — Latin America

- Main organizer of one of the largest Flutter conferences in Latin America
- Led end-to-end event planning including venue selection, budgeting, sponsorship acquisition, and logistics
- Coordinated international speakers, sponsors, and volunteers across multiple countries
- Managed ticketing strategy, marketing campaigns, and community engagement
- Organized live streaming, multi-track talks, and on-site technical setups
- Built partnerships with tech companies and developer communities to grow the Flutter ecosystem in the region

Founding Organizer **2022 - Present**
Flutter Meetup Arequipa — Arequipa, Peru

- Organized local Flutter meetups and extended community events
- Coordinated speakers, venues, and event logistics for in-person sessions
- Promoted knowledge sharing and networking among developers
- Distributed community swag and encouraged participation in larger regional events
